

Stainless Steel Cleaner & Polish Aerosol

Technical Data

TD316 - Date: July 2001 – Supersedes previous issue - Page 1 / 1

Description:

3M brand Stainless Steel Cleaner & Polish is a ready-to-use cleaner and polish, packaged in an aerosol container. The product is a white, non-evaporating foam when dispensed onto a surface.

Special Features:

- Cleans and polishes in one step
- Leaves no greasy build-up on surfaces.
- Pleasant citrus fragrance.
- Leaves a light protective film on surface, to mask blemishes, to slow down resoiling, to reduce fingerprints, to resist streaking.
- Does not contain harmful petroleum distillates.
- Non-volatile, non-flammable.
- Authorised by the USDA for use in meat and poultry processing plants (federally inspected plants).

Where and When to Use:

Suitable for use on a variety of interior surfaces such like: stainless steel, chrome, aluminium, brass and also on washable hard surfaces like laminated plastics, enamel, ceramic. Use as a routine cleaner and maintainer.

Limitations of Use:

Do not use on glass, mirror and windows.
Do not use on utensils in contact with food.

Directions for Use:

Routine maintenance:

1. Shake the can well before use.
2. Turn spray tip so arrow points to dot on cam rim. This is to ensure full usage of content.
3. Spray lightly, about 20 cm away from surface to clean.
4. Clean and wipe dry entire area, using a clean absorbent cloth.

Heavy duty cleaning:

1. Spray liberal amount of Stainless Steel Cleaner & Polish onto a White Scotch-Brite hand pad.
2. Vigorously rub the soiled area to remove soiling.
3. Wipe surface with an absorbent cloth to remove excess product.
4. Buff dry the area to achieve desired level of shine.

Packaging:

600 ml (21.5 oz) aerosol can.
12 cans per case.

Labelling:

Multi-lingual label with instructions of use on each can.

Product Specifications:

Contains: food grade white mineral oil, emulsifiers, water and hydro-carbon propellant.
Appearance: clear, colourless liquid
