

# EliteVue

## Fibre Optic Macro Otoscope

### The EliteVue otoscope sets the standard.

The **EliteVue** offers twice the field of view and 66% greater magnification compared to standard otoscopes.\*

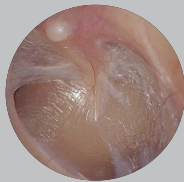

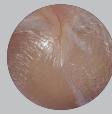

It provides a significantly improved view of the auditory canal and tympanic membrane, enabling more efficient diagnosis and better patient outcomes. Suitable for throat illumination.

- › High-performance LED illumination (4000 Kelvin, CRI = 92), lasting for up to 100,000 hours
- › More than 5-fold magnification
- › Twice the field of view of a standard otoscope
- › Complete view of the tympanic membrane
- › Reflection-optimised, high-performance glass optics
- › Wheel to adjust focal depth
- › Easy-to-operate SpecEjec specula ejection device at the rear of the otoscope to avoid contamination
- › Suitable for pneumatic otoscopy (supplied without ball)
- › A wide range of power supply options: as part of a diagnostic station, battery-operated or with a rechargeable handle

**EliteVue** is compatible with **ri-scope® L** handles and power sources, as well as the **ri-former®** wall diagnostic station.

### Technical data

		
	<b>EliteVue</b>	<b>ri-scope® L</b>
<b>Field of view, Ø *</b>	11 mm [0.43 in]	5.5 mm [0.22 in]
<b>Magnification</b>	5x	3x

### ORDERING INFORMATION

<b>10510**</b>	<b>EliteVue</b> head, LED 2.5 V
<b>10512</b>	<b>EliteVue</b> head, LED 3.5 V
<b>10512-301</b>	<b>EliteVue</b> head, LED 3.5 V with anti-theft security
<b>2200-204</b>	<b>EliteVue</b> otoscope set, LED 2.5 V with C-handle for 2 alkaline batteries
<b>2200-203</b>	<b>EliteVue</b> otoscope set, LED 3.5 V with C-handle for 1 rechargeable Li-ion battery
<b>2211-203</b>	<b>EliteVue</b> otoscope set, LED 3.5 V with C-handle, 1 rechargeable Li-ion battery and plug-in charger
<b>2210-204</b>	<b>EliteVue</b> oto-/ophthalmoscope L2 set, LED 2.5 V with C-handle for 2 alkaline batteries
<b>2210-203</b>	<b>EliteVue</b> oto-/ophthalmoscopeset L2 set, LED 3.5 V with C-handle for 1 rechargeable Li-ion battery
<b>2212-203</b>	<b>EliteVue</b> oto-/ophthalmoscope L2 set, LED 3.5 V with 2 C-handles, 2 rechargeable Li-ion batteries and desk charger

\*At a distance of 20 mm [0.79 in] between landmark and distal tip of the specula.

\*\*Compatible with alkaline batteries only and the **ri-scope® L** handle (#10670 – sold separately). Not suitable for rechargeable batteries or use with **ri-former®**.
