No-Touch Hand Wash Bar Dispenser

Description

A new-to-the-world dispensing system, delivering a hygienic and pleasant hand wash experience through a finely grounded Lesseau hand washing bar.

The LESSEAU no-touch hand wash dispenser is durable, with locking mechanism, easy to refill and can be recharged with a USB cable.

LESSEAU's award winning, stylish design makes it suitable for customer sites with small and compact spaces and in all sectors aiming to elevate cleanliness, style, and sustainability.

Key properties

- Wall-mounted solid hand wash dispenser in ABS and PC ABS
- Touchless activation with a sensor
- Equipped with a lock in the lid and on the wall plate, making theft virtually impossible
- Small compact size
- The dispenser holds 2 hand wash bars totalling 600 doses
- Low level product indicator on the top of the lid, when there is one bar left in the dispenser
- Low battery alert with a red light flashing on the bottom of the dispenser
- Easy to clean
- Carton packaging (zero plastic packaging)
- Dispenses unique finely ground handwash which lathers easily

Benefits

- Splash proof
- Never empty: a new bar can be replaced before the product is completely consumed
- No product waste: the dispenser technology grinds Lesseau bar completely with no residue left inside.
- Reduced CO₂ impact: no batteries and no plastic packaging to dispose, zero product waste costs and low logistic costs thanks to the use of concentrated solid detergent in the bars.
- Always working: easy to recharge and refill with visual alerts
- An innovation that will generate a wow-factor that your customers will remember
