

QuickTask™ Mop

Multi-Layer Knitted Polyester Mop, (TASK0200, TASK0250)

The QuickTask range consists of a variety of flat mop heads that can be easily attached to a choice of flat mop head frame and handle assemblies.

QuickTask TASK0200 and TASK0250 mop heads are constructed from multi-layers of 100% knitted polyester creating a highly sorbent mop which allows for an even application of solution. The cleanroom laundered polyester ensures a very low level of particulates making the mop suitable for use in the highest grade of cleanroom.

Features & Benefits

- Cleanroom laundered 100% polyester knit ensures a low level of particulates
- Sorbent multi-layer knitted structure applies solutions evenly
Suitable for removal of light soils, residues and biofilms

***Mop coverage

Note that solution coverage depends on many variables including room airflow, temperature, surface type and texture, solution used, and mop application protocols and technique. Because of these variables, coverage data provided may not correspond to visibly-wet surfaces for contact time required for a particular solution. Coverage data is based on mop head applying solution such that the mopped surface is visibly wetted across the full mop path with no dry streaking observed, under controlled conditions. It is the responsibility of the user to determine appropriate coverage to ensure surfaces are visibly wet for the contact time required for their specific solution.
