

Contec MicroGenesis

Single Use Disposable Microfibre Flat Mop Head

Suitable for use with the Contec QuickTask flat mop system, the Contec MicroGenesis mop head is constructed of synthetic microfibre that creates a lightweight and cost effective mop, ideal for the removal of gross soil and fine particulates.

Compatible with most common disinfectant chemistries including quaternary ammonium compounds, alcohol, hydrogen peroxide, and chlorine based disinfectant, this low particulate flat mop can be used wet or dry, and provides uniform surface coverage and liquid distribution. Each saturated mop head will cover approximately 6 sqm.

The "pocket" style design allows for quick changing of mop heads and the autoclavable, collapsible mop head frame, available in heavy duty plastic or stainless steel, easily snaps into the pockets.

A sterile version is available; gamma irradiated at no less than 25kGy and 5 mops double bagged together for ease of entry into the controlled environment.

FEATURES	BENEFITS
Synthetic microfibre	<ul style="list-style-type: none"> • Excellent for removing gross soil and fine particulates • When applied to a surface the liquid is evenly released without dripping. • Compatible with a wide range of disinfectants and detergents
